3M™ PELTOR™ Lite Com BRS Two Way Radio Headset, MT53H7P3E4600-NA, Hard Hat Attached, 1 EA/Case

3M Product Number MT53H7P3E4600-NA, 3M ID XH001680582, UPC 07318680063424

- 8 pre-programmed BRS channels and 38 CTCSS sub-channel settings
- Ghost voice menu prompts for easy mode selections
- Operates with 2 AA batteries (Rechargeable battery pack sold separately)
- Push-to-Talk (PTT) or hands-free Voice-Activated (VOX) transmit functions

Specifications

Battery Life	Approx 20 hours
Battery Type	AA or Rechargeable NiMH Pack
Bluetooth	No
Brand	PELTOR
Built in 2-Way Radio	Yes
Built In FM and or AM Radio	No
Color	Dark Blue

Communication Type	Two-way radio
Communication via External 2-Way Radio	No
CSA Class	CSA Class B
External Audio Input	No
Features	Integrated Two-Way Comms
Hearing Protection Style	Earmuff
Hearing Protection Type	Hard Hat Attached
In-Ear Solutions	No
Intrinsically Safe	No
Level Dependent Function for Ambient Listening	No
Microphone Class/Type	Electret
Noise Attenuating Headsets	Yes
Noise Reduction Rating	24 Decibel
Product Series	Lite-Com
Product Type	Communications Headsets
PTT Adapters or Interface Solutions	No

Details

- 8 pre-programmed BRS channels and 38 CTCSS sub-channel settings
- Ghost voice menu prompts for easy mode selections
- Operates with 2 AA batteries (Rechargeable battery pack sold separately)
- Push-to-Talk (PTT) or hands-free Voice-Activated (VOX) transmit functions
- Federal Communications Commission (FCC) Narrow band mandate compliant
- Operates on communications frequencies that are subject to FCC Rules & Regulations

Enhance employee safety and communication in noisy environments with 3M PELTOR LiteCom Two-Way Headsets. It features UHF two-way radio technology integrated into the headset for an all-in-one design simplifying communications between workgroup members. An efficient alternative to conventional portable

Designed for use in construction, manufacturing, processing, equipment maintenance, crane operations and many other applications in noisy environments, the PELTOR LiteCom BRS headset radio helps your workgroup improve performance through better communications. It delivers the convenience of cable-free operation while providing the hearing protection workers need to help protect them from workplace noise hazards. The headset switches off automatically if it is inactive for more than two hours, to conserve the battery life. Notification of battery status occurs every time you switch the headset on. All settings and controls on the 3M PELTOR LiteCom BRS headset are designed to be intuitively simple, avoiding the need to remove the headset unnecessarily, which could cause exposure to hazardous noise. A voice prompt guides you through the menu. As you speak into the microphone, the channel is opened in milliseconds, so other users can hear you regulate the noise level, providing seamless communication. The microphone is designed to only pick up speech, effectively filtering out other sounds.
