Aluminum Extrusion Slim T-Nut for 20x20 – M4 Thread – pack of 50

PRODUCT ID: 1157

DESCRIPTION

An essential for working with slotted aluminum extrusion, these slim metal nuts slide into the side-slot of the extrusion. The slightly oval shape means that as they screwed-into the nut jams against the slot.

This product comes as a bag of 50 slim T-nuts, with M4 threads. If you don't need to be able to insert them from the side, check out our "oval" T-nuts that be dropped into the slot from the end. Works with any of our M4 (0.7mm pitch) screws.
