# Potentiometer Knob - Soft Touch T18 - White

PRODUCT ID: 2047

Description

- *Oh say can you see*
  By the knob's early light...

Sorry - we thought that was clever. And while it wasn't really, this potentiometer knob definitely is. It's a 'soft touch' T18 knob that works great with our Panel Mount 10K, Panel Mount 1K, and Panel Mount 100K potentiometers. The knob is designed to set directly on the potentiometer's ridges so it's an easy & secure fit. It has a nice feel, with a rubbery grip, tweaking it is quite fulfilling

This is the **White** version and it has a nice deep color on the inside with a striking white line on the outside for great visibility with whatever you're making. We also carry it in red and blue if you're looking for a variety of colors

Technical Details

Diameter of the top: 11mm / 0.4"
Diameter of the base: 15mm / 0.6"
Weight: 1g
