

3.5mm (1/8") Stereo Audio Plug Terminal Block

PRODUCT ID: 2790

. Description

One truth about working with audio is you always need the cable or adapter you *don't* have in your toolbox. That's why we love these terminal-block audio connectors so much. **No soldering required!** Use stranded or solid core wire and a small screw driver to create custom wiring jigs.

This is the **3.5mm (1/8") Stereo Audio Plug Terminal Block**. It's the most common size and style of audio connector, used in most headphones or basic audio connections you're looking to make.

We also have a (matching) Stereo Audio Jack Terminal Block!

. Technical Details

- 42.2mm x 18.6mm x 12.7mm / 1.66" x 0.73" x 0.50"
- Weight: 8.5g
