# 3.5mm (1/8'') Stereo Audio Jack Terminal Block

PRODUCT ID: 2791

- # Description

One truth about working with audio is you always need the cable or adapter you *don't* have in your toolbox. That's why we love these terminal-block audio connectors so much. **No soldering required!** Use stranded or solid core wire and a small screw driver to create custom wiring jigs.

This is the **3.5mm (1/8") Stereo Audio Jack Terminal Block**. It's the most common size and style of audio connector, used in most headphones or basic audio connections you're looking to make.

We also have a (matching) Stereo Audio Plug Terminal Block

- # Technical Details

  - o 37.3mm x 17.9mm x 12.1mm / 1.46" x .70" x 0.48"
  - o Weight: 7.5g
