

FeatherWing Proto – Prototyping Add-on For All Feather Boards

PRODUCT ID: 2884

DESCRIPTION

A Feather board without ambition is a Feather board without FeatherWings!

This is the FeatherWing Proto – a prototyping add-on for all Feather boards. Using our Feather Stacking Headers or Feather Female Headers you can connect a FeatherWing on top or bottom of your Feather board and let the board take flight!

This has a duplicate breakout for each pin on a Feather, as well as a bunch of plain grid proto holes. For GND and 3.3V, we give you a strip of connected pads. There's plenty of room for buttons, indicator LEDs, or anything for your portable project. The FeatherWing Proto makes an ideal partner for any of our Feather boards.

Technical Details

50.8mm x 22.9mm x 1.6mm / 2" x 0.9" x 0.06"

Weight: 3.2g
