

Relay Shield for Photon PRODUCT ID: 3051

• Description

Regulate the power to a variety of electronics with this four **Relay Shield for Photon!**

The Relay Shield allows you to control any normal outlet or high voltage product from anywhere. The shield comes with four relays that are rated at a max of 220V @ 10Amp allowing you to control any electric appliance rated at under 2000 Watts.

Note that you *will* need a DC adapter to power the relays! We recommend this one. Product ID: 798

• Technical Details

- Operating voltage: 7 to 15V DC
- Current consumption: 150mA min to 290mA (at 9V DC)
- Relay Max Voltage: 250V AC
- Relay Max Current: 10Amp at 125V AC
- Compatible with both the Core and the Photon.
- Dimensions: 152.7mm x 46mm x 18.2mm / 6" x 1.8" x 0.7"
- Weight: 82.
