8GB MicroSD Card with NOOBS 2.0

PRODUCT ID: 3259

- # Description

NooBs is the fastest way to have a variety of operating systems on your Pi. Available on an 8G card with a cool logo, you can now boot multiple OS's such as Raspbian, Kodi, OSMC, Windows 10 IoT, etc. There's a boot up menu for selecting which one you like. Plus, the accompanying adapter is decorated with the stylish Raspberry Pi logo! **This card has NooBs 2.0 on it with Raspbian all ready to go with no network connection.** It has enough space for 2 or 3 simultaneous OS options!

Plug in Ethernet cable to also download the latest versions of

- o OSMC
- o LibreELEC (Kodi)
- o RISC OS
- o Windows 10 IoT core

Works with any and all Raspberry Pi computers except Raspberry Pi Zero W. Since NooBs has recently updated to add Pi Zero W support we recommend reformatting/burning NooBs on from scratch if your Pi Zero W doesn't run!

Note: As of Dec. 2nd, this product is now programmed with **NOOBS 2.0**
