

Small Alligator Clip Test Lead (Set of 18)

PRODUCT ID: 3447

Description

Connect this to that without soldering using these mini alligator clip test leads. 15" cables with alligator clip on each end in six colors. Strong and grippy, these always come in handy! We often use these in conjunction with a multimeter, so we don't have to hold the probes in place, or with wearable projects, or for quick prototyping with big-pad circuit boards like microbit & Circuit Playground.

Compared to our large alligator clip set, these are smaller and 'pointier'

- 18 piece set, color-coded vinyl-insulated alligator clips
- Contains three of each: Black, red, white, green, blue, and yellow
- Heavy 22AWG copper wire
- 1 1/4" alligator clips at both ends
