

Day of the Geek Soldering Badge

PRODUCT ID: 3590

Description

Are you a proud geek who also loves the Day of the Dead? *Qué bueno!* Well, this Day of the *Geek* LED Skull Badge will be up your alley! This is a DIY soldering kit you'll need to assemble it yourself, but luckily it's very easy and very fast, so this is a good kit for beginners. You even get a wide range of LEDs for the eyes so you can make your skull just the way you like it.

You'll need basic soldering tools, such as an iron, solder, and diagonal cutters. This fun, customizable badge lapel kit includes:

- 1x Skull PCB
- 2x Red LEDs
- 2x Blue LEDs
- 2x White LEDs
- 1x CR2032 Battery holder
- 1x Pin back

Note: This product does not come with 1x CR2032 coin cell battery (to make shipping easier). You can pick up a battery from us or a local hardware store.

Technical Details
