

Panel mount HDMI Cable – 40 cm

PRODUCT ID: 978

DESCRIPTION

This panel mount extension cable will allow you to extend an HDMI connection and secure it to an enclosure. Perfect for placing your Raspberry Pi in a secure box. Two #4-40 screws are used to attach the female socket end, 26.9mm apart. Two hex-body standoff-screws are included as shown above and the hex nuts are embedded inside the molded end.

Cable is 40cm long (about 16 inches). This is a HDMI 1.4 cable.
