

WCB 2 Calibrator - Calibration unit

BestellNr.:0053118099

WCB 2 Calibrator

The WCB 2 is an external input unit for programming additional functions. It works with every digital Weller station. The setting is fast and easy. Battery powered supply makes the box independent from any mains and easy to transport. The WCB 2 has an PC interface (RS 232) and an integrated temperature gauge for thermo couple type K (accessory). The following function are available: See Top Attributes.

Top Attributes

- OFFSET: correction value for soldering tip temperature
- SETBACK: Reduction of the set temperature after a specified period of time
- LOCK: locking the set temperature
- °C / °F: switching temperature display °C / °F
- WINDOW: setting a set value window. If the actual temperature is within the set value window a potentialfree contact is activated
- Temperature measuring tips are available for each soldering iron

Technical Data

Target application	Electronic
On/off indicator	No
Build in Light	No

Packaging information

Shelf pack size (Units per shelf pack)	Single
Set	No
