

6325 PCI Express Card Edge Connectors

GENERAL DESCRIPTION

The standard vertical card edge connectors are specifically designed to implement PCI Express technology for desktop PCs and server systems. These connectors allow the end user to upgrade the PC with an “add on graphics card”. Therefore complete range is available to support basic speed x1 to high-speed x16 bandwidth requirements.

The connectors are available in 36(x1), 64(x4), 98(x8) and 164(x16) contact positions, all in a 1.00mm pitch. Therefore each range can support different bandwidth requirements for an “add on” graphics card.

These connectors are ideal for use in a broad range of computing/data communication applications, including desktop PCs, Servers and Workstations.

All connectors support PCI Express signal and Power requirements as well as the interface between system board and the add on card specification.

FEATURES/BENEFITS

- Different tail (contact) length (2.3mm or 3.00mm) available to support differing motherboard thickness.
- Tails are offset to form 4 rows on a 2.00mm pitch, thus making wave soldering easier.
- All connectors come with locating bosses to help align the connector to PCB (motherboard).
- Raised ridge at the topside of the connector, which can be used to lock/retain the graphic card.
- Molded polarization key prevents improper insertion of the PCB.
- Connectors have slots to accept “add in” cards with thickness of 1.58mm (0.062in).
- Conforms to PCI Express specification on connectors.
- Available in black or white color.

TECHNICAL SPECIFICATIONS

Current Rating:	1.1 Ampere, maximum
Contact Resistance:	30 milliohm, maximum
Contact Material:	Phosphor Bronze
Contact Plating:	See table below
Insulator Material:	30% Glass Filled Nylon
Insulation Resistance:	100 Megaohms 50 50V AC

Plating Table

Code	Contact Area	Terminal Area
1	15µm AuNi	Tin/Lead
6	15µm AuNi	Tin (Lead Free)

APPLICATIONS

- Desktop PCs
- Servers
- Work Stations
- Factory Automation Systems

HOW TO ORDER

20
Connector

6325
Series

098
Number of Contacts

0 02
Color
0 = Black
1 = White

Tail Length
1 = 2.30mm
2 = 3.00mm

00 1
Variation
00 = Standard
01 = Latch
(164 only)

Plating
1 = Tin Lead
6 = Tin (Lead Free)
