One Year Warranty

Additional Specifi	cations	mode
		81 OC

	810C
EXCITATION VOLTAGE	<3.5 V Max. (approximate)
ZERO ADJUSTMENT RANGE	+20 pF typical
PROTECTION	Input protected by 0.1A/ 250 V Fast Acting.
MEASUREMENT RATE	2 per second, nominal.

Additional Specifications <u>model</u>

	830H
HOLD ACCURACY	all specs between 180 & 1999 counts same as Auto: for all readings between 0
	and 179 counts add: 0.1% for full scale to 19.99 mF; 0.5% of full scale from
	19.99 mF to 199.9 mF.
READING TIME	0.4-1.0 sec to 20 mF; increasing to 6 sec at 200 mF.
ZERO CONTROL	Can compensate up to 2000 pF of test lead capacitance.
OVERRANGE	
INDICATOR	01 display and mF indicates on.

Capacitance **Meters**

Model 810C Capacitance Meter

The Model 810C Capacitance Meter is a compact capacitance meter, designed for accurate measurement of capacitive compo-

nents. It features direct plug-in test sockets 810C and test lead jacks. A zero adjustment knob is also provided to "zero" test lead capacitance.

- ■Zero adjustment knob **■**Capacitor test sockets
- **■**Fuse protected
- **■**Protective rubber boot

Model 830A **Capacitance Meter**

The Model 830A Capacitance Meter is a highly accurate capacitance meter It is fully autoranging and can be powered from a choice of alkaline betteries or from AC/DC adapter/charger (sold separately).

A selectable range hold feature provides for fast batch testing of large value capacitors.

■Auto ranging ■Selectable range hold feature

■Capaciter test socket and test lead jacks

830A

■Zero adjustment

Model 890

The Model 890 Capacitance Meter features a large LCD with dual display, 5,000 counts resolution, and 10 automatically selected ranges with full scale value from 0.1pF to 50mF. Designed to meet the latest international safety standards, the meter's dedicated chip and microprocessor allow programmable high/low limits or pre-programmed standard capacitor tolerances, making it ideal for

measuring values, inspection, sorting capacitors and testing capacitors against standard tolerances. Optional software and cabling is available for PC based data logging and monitoring. The 890 is a unique value and is indispensible on the inspection bench.

- Dual display simultaneously Program unique values displays value and deviation from selected tolerance
- ■Sort on preset tolerance of ■RS-232 interface for 1,5,10%
- to sort for specific circuit applications
 - data logging software available
