

USB-to-GPIB Adapter

**Model AK40G**

The AK40G USB-to-GPIB adapter provides GPIB connectivity through the front USB host port on 4050 & 4060 series generators and some digital storage oscilloscopes. The GPIB and USB connectors conform to IEEE488.2 and USB 2.0 respectively.

- Powered through USB host connector
- Cable length approximately 56 inches (143cm)
- Communication Status LED and Power LED indicators
- GPIB interface supports Device mode only (not Controller mode)
