

MCX Right Angle Plug Assembly Tool

This quick and easy to use tool will assemble the end cap onto standard Right Angle MCX Plug connectors. Simply insert the connector and cap into the staking nest and a light squeeze of the handles will swage the cap into place.

The jaw tips are designed to grip a Right Angle MCX Plug body for insertion or disengagement to a mating receptacle. The jaws are hardened steel and the handles cushioned to minimize stress to the user. For use with all cable groups except RG-58.
