Descriptions

The BeagleBone LCD is a top-level cape with touchscreen capability for use with BeagleBone boards. The top side of this cape features a 7" TFT LCD screen, which can display up to 800x480 resolution, as well as a 4-wire resistive touchscreen and four user buttons. The BeagleBone LCD Cape is reset and powered on by buttons. BeagleBone board and other capes are mounted on the backside. When purchasing a BeagleBone LCD Cape, customers have an option of choosing default standoffs or buying an additional set of piano-black aluminum stands.

BeagleBone LCD Cape
