L6R24D / L6R30D Series

24W & 30W Desktop Power Supplies

- DOE Level VI Efficiency Rating
- Universal Input: 90 ~ 264Vac, 47/63 Hz
- UL/cUL Safety Approved
- · Corded Output Connection
- IEC 60320 C8 AC input connector
- · Light Weight and Compact

Model No.¹	Application	Output Connector	Output Voltage	Output Current			Voltage	Ripple	Line	Load
				Min	Rated	Peak	Accuracy	Noise	Reg.	Reg.

- 1. Add "C8" suffix for the required AC input connector configuration.
- Output voltages from 5.0Vdc to 36.0Vdc are available in increments of 0.1V. Please contact Tri-Mag, LLC for the part number and specifications for your output voltage requirement and application.
- The output voltage is verified to specs at 60 percent rated load condition.
- The line regulation is defined by changing ± 10 percent of input voltage from the nominal line at rated load.
- The load regulation is defined by changing ± 40 percent of the measured output load from 60 percent of the rated load.
- The **ripple and noise** is measured by using 20MHz bandwidth limited oscilloscope with each output terminated with a 10 μF electrolytic and a 0.1 μF capacitor at rated load and nominal line.
- The efficiency is measured at rated load and nominal line.

L6R24D / L6R30D Series

Whether powering stationary or charging portable devices, this desktop power supply is reliable and economical.

DOE Level VI compliant. Rated up to 30W. Voltage

levels from 5.0Vdc to 36.0Vdc (in increments of 0.1V), to match your specifications.

Call us (800-657-0853) for the part number to match your particular need.
