

CY8CKIT-012 PSoC® Prototyping and Development Expansion Board Kit

Last Updated: 06/12/2012

Cypress's PSoC® programmable system-on-chip architecture gives you the freedom to not only imagine revolutionary new products, but the capability to also get those products to market faster than anyone else. This kit enables you to evaluate, develop, and prototype the exact circuit required for your application prior to creating a custom board.

Development Kits/Boards (7)
