### Introduction

For beginners to Arduino it can be daunting and risky to wire LCD driver circuits - one wrong connection and your component can be damaged. This LCD expansion board removes all the complications and risks.

The TELEMATICS 3.5" TFT Touch LCD Shield is an Arduino compatible display designed by DFRobot, with a resolution of 320x480, three serial ports and one IIC interface. It is perfectly compatible with Arduino DUE, Mega1280/2560, and Bluno Mega1280/2560. There is an on-board voltage switch which supports changing the output voltage between 3.3V and 5V to ensure that it

won't damage your DUE. In addition, the LCD shield comes with a MicroSD card slot on the back that can be used for data storage up to a maximum of 32GB. We also offer a variety of driver packages to help you implement different features.

**Note:** Since the operating voltage of DUE and MEGA are different, the backlight brightness will change if you replace your Arduino platform. Please adjust the D8 PWM signal to control the brightness of the backlight

## Specification

- Screen Size: 3.5"
- Resolution Ratio : 320x480
- Power Supply: 5V
- Output Voltage: 3.3/5V
- Backlight Control Mode: D8 PWM signal
- Supports MicroSD card (Up to 32GB)
- Serial Ports: 3
- IIC interface: 1
- Compatible with Arduino Compatible DUE/Mega 1280/2560
- Compatible with the Bluno Mega 1280/2560
- Supports Touch Functionality
- Dimensions: 100x57mm/3.93x2.24 inches
- Weight: 70g

## Board Overview

### Note:

- **LCD Driving Pins:** D2, D3, D4, D5, D6, D8, D22~D41, D50~D53

Interface	Description
IIC Interface	IIC (SDA: 20; SCL: 21)
Serial1	Serial1
Serial2	Serial2
Serial3	Serial3
SD Driving Pins	D52->DATA0 D50->CMD D52->CLK D53->CD/DATA3

## Tutorial

### Requirements

- **Hardware**

Bluno Mega 2560 x 1

TELEMATICS 3.5" TFT Touch LCD Shield x 1

- **Software**

Arduino IDE (Latest) [Click to Download Arduino IDE from Arduino®](#)

### Sample Code 1

In this section, we'll explain how to initialize the LCD screen. You can use "**setFontSi**" and "**setColor**" function to change the font and the color of the characters

```
1 /*
2 This code will demonstrate how to make the LCD display string with the
library
3 If you need to set the font size, you can call this function "setFontSi
ze()",and you can set the parameters:
4     FONT_SIZE_SMALL
5     FONT_SIZE_MEDIUM
6     FONT_SIZE_LARGE
7     FONT_SIZE_XLARGE
8
9 If you want to set the font color, you can call this function "setColor
()" with the parameters:
10    RGB16_RED----->RED
11    RGB16_GREEN----->GREEN
12    RGB16_BLUE----->BLUE
13    RGB16_YELLOW----->YELLOW
14    RGB16_CYAN----->CYAN
15    RGB16_PINK----->PINK
16    RGB16_WHITE----->WHITE
17
18
19

23 */
24 #include <Arduino.h>
25 #include <SPI.h>
26 #include <MultiLCD.h>
27
28 LCD_R61581 lcd;
29
30 void setup(){
31   lcd.begin();
32   lcd.setFontSize(FONT_SIZE_MEDIUM); //set font size
33   lcd.setColor(RGB16_RED); //set strings color
34   lcd.println();
35   lcd.println();
36   lcd.println("DFRobot!!!");
37   lcd.println("TELEMATICS LCD SHIELD V1.0");
38   lcd.println();
39   lcd.setColor(RGB16_WHITE);
40 }
41
42 void loop(){
43 }

```

## Sample Code 2

In this section, we'll explain how to use the SD card with LCD screen.

```

1 /*
2 /*
3 This code is to teach you how to use SD library.

97         }
98     }
99 }
100
101 void loop(){
102 }
```

## Sample Code 3

In this section, we'll explain how to use the touch function

```
1 #include <Arduino.h>
2 #include <SPI.h>
3 #include <MultiLCD.h>
4 #include "touch.h"
5
6 LCD_R61581 lcd;
7
8 void setup(){
9   lcd.begin();
10  lcd.setFontSize(FONT_SIZE_MEDIUM); //set font size
11  lcd.setColor(RGB16_YELLOW); //set strings color
12  lcd.println("DFRobot");
13  lcd.println("TELEMATICS LCD SHIELD V1.0");
14  lcd.println();
15  lcd.setColor(RGB16_WHITE);
16
17  touch.init();
18 }
19
20 void loop(){
21  lcd.setCursor(0, 8);
22  int x, y;
23  if ( touch.read(x, y) ){
24    lcd.print("X:");
25    lcd.print(x);
26    lcd.print(" Y:");
27    lcd.print(y);
28    lcd.print("  ");
29  } else {
30    lcd.print("          ");
```

31 }

32 }
