

Single Motor Mount (pair)

Part # 240-022P

- Comes with all hardware necessary to attach directly to the Robotic Starter Kit (RSK) or the Base Plate Expansion
- Can be used to add two additional motors/gearboxes to the RSK
- Predrilled for easy mounting of the Digilent motor/gearboxes
- Ships in sets of two

Rugged metal motor mounts suitable for use with the Robotic Starter Kit (RSK), Base Plate Expansion or custom applications. These motor mounts use slotted mounting holes designed to allow exact alignment of motors in most applications.

Note: kit does not include motors
