

Base Plate Expansion Kit:
Punched Metal Baseplate
for Digilent Robot Kits

SKU:
240-025

Description

Rugged metal base plate suitable for use in extending the size of the Robotic Starter Kit (RSK) or for use in custom applications. Ships with standoffs and screws for extending the height of the RSK platform.

Features:

- Base plate for use in extending the size of the Robotic Starter Kit (RSK) platform
- Identical to the baseplate used in the Robotic Starter Kit
- Made of rugged metal with mounting holes on 1/2" centers
- Measures 5 7/8" square
- Ships with 1 3/4" standoffs for vertical expansion of the RSK
