

FLT CONNECTOR

Connectors for FPC

Features

• Heat resistant design suitable for surface mounting

The housing is made of heat resistant plastic to allow reflow soldering.

• Staggered surface mount tails

The lead pitch is thus 1.0mm (.039"), which enables connector mounting operation easier.

• Embossed tape for automatic mounting

The FLT connector is packaged in embossed tape for automatic mounting. The plastic reel can be used repeatedly, good for eco-system.

• FPC insertion is easy

Staggered and unique contact point layout can reduce the FPC insertion force, yet with secure retention force.

• Compact design

This connector measures only 4.15mm (.163") high after mounting, with a reduced surface mounting area, as solder tabs are not necessary because of the staggered solder tail construction.
