

Tip Tinner

4910 NEW**96.5% Tin / 3.5% Silver**

Tip Tinner is a mixture of solder powder and thermally stable, oxide-reducing compounds. Used to repair oxidized soldering tips for optimal performance and for extending the working life of new soldering tips.

Features / Benefits

- RoHS Compliant
- Easy to use
- Effective at repairing oxidized iron tips
- Prolongs the life of new iron tips
- 96.5% Tin / 3.5% Silver

Typical Applications

Use to clean and re-tin iron tips.

Application Method

While maintaining soldering iron at operating temperature, roll or wipe soldering iron tip over the surface of Tip Tinner for a few seconds until soldering tip is evenly tinned. Remaining residue after tinning can be readily removed by wiping with a wet sponge.
