AT83C25OK is a highly integrated solution, including OMNIKEY firmware and associated drivers, for any smart card reader using a PCMCIA link.

It allows customers to reduce time-to-market as it is compliant with ISO 7816, EMV 2000 and WHQL certified.

The AT83C25OK combines Atmel and OMNIKEY's expertise in smart card reader development and in-system integration.

To implement this turnkey solution, customers only have to include the appropriate drivers in their host software (Windows® 98/ME/NT4/2000/XP, CE.NET, Linux®).
