

Datasheet for 76650-0151

General Information

Part Number:	76650-0151
Manufacturer:	Molex / Waldom
Title:	Deluxe Splashproof Application Kit
Description:	Includes USB Type A and B, RJ-45, MX150L, MX150, Mini-Splashproof Product Families. Pitches range: 2.5mm (.098") - 5.84mm (.230")
Product Family:	Mini-Splash Proof, MX150™, MX150L™, and Industrial (USB, & RJ-45 Ethernet)
Certificates:	(Molex Parts within this kit) - EU RoHS Compliant
Country of Origin:	Kit assembled in U.S.A.

Specifications

Design

Configuration:	(Wire-to-Board) and (Wire-to-Wire)
Pitch:	2.50mm (.098"), 3.5mm (.138"), and 5.84mm (.230")
Connector Type:	Plugs and Receptacles, and Cables
Mounting	
Orientation:	Vertical (Receptacles)
Circuit Sizes:	2, 3, 4 and 6
Current Rating:	1 Amp and 1.5 Amps, (3-4) Amps, 18 Amps and 22 Amps
Voltage:	25 Volts / 30 VoltsAC (RMS) and 150 Volts / 250 Volts / 600 Volts
Wire:	(22-20), (22-18) and (20-18) AWG

Datasheet for 76650-0151

Product Highlights

Industrial USB (Universal Serial Bus) connectors bring one of the most popular and convenient I/O connectors into harsh commercial and industrial environments. USB connectors are ideal for both short-term diagnostics (that require simple and fast setup), without having to turn off computers or equipment, and permanent installations for data acquisition systems. The rugged, plug and receptacle designs feature bayonetstyle latches, encapsulated PCB receptacles and overmolded cable assemblies to help keep out dust, debris and water.

Ethernet connectors are of Category 5e transmission performance and TIA/EIA-568-B (RJ-45) connection interface. RJ-45 EtherNet/IP* Cordsets and Receptacles are ideal for use in environments where EtherNet protocol is used, including manufacturing facilities, water treatment plants and transportation hubs. Designed with one sealing surface, the connectors ensure optimum performance even in harsh environments.

The pre-assembled, submersible MX150L is a high performance, environmentally sealed connector system suitable for challenging, rugged and harsh applications, supporting both low-level signal as well as power applications. The cost-effective connector design features all-in-one plug and receptacle housings with pre-assembled mat-wire and interfacial connector seals. The mating interface provides full IP67 sealing capability.

*EtherNet/IP and †DeviceNet are trademarks of the Open DeviceNet Vendor Association.

Product Highlights continued

2.50 mm (.098") pitch Mini-Splash Proof, is a 2-4 circuit water-resistant WTW connector system. Mini-Splash Proof connectors are sealed for moisture environments, and JIS D0203 S2 Waterproof Compliant.

The MX150 Sealed Connector System is designed to meet the need for a rugged, environmentally sealed connector system supporting both low-level signal applications as well as power applications up to 22A, from on-engine automotive applications to off-road construction equipment applications. This design eliminates the need to purchase, handle and crimp individual wire seals to lower applied cost, is in a reduced package size for typical SAE style wire.

Features and Benefits	Applications
<ul style="list-style-type: none"> • IP67 and NEMA 6P Rating ensures cordsets are water and dust tight for functional integrity • Fully shielded cable provides Electro Magnetic Interference/Radio Frequency Interference (EMI/RFI) protection • Overmolded cordsets, allow faster installation at customer site versus field-wireable designs 	<ul style="list-style-type: none"> • Factory Automation • Industrial Computers • Industrial Controllers • Factory Peripherals • Printers • Barcode Scanners • Robotics • Vision Systems • Motion and Process Controls

Features and Benefits continued

- Simple crimp, poke and plug application, no crimping individual wire seals
- Audible and tactile clicks on insertion, extraction and mating
- Easy terminal extraction and insertion
- Quick, low-cost field repairs using common screw driver, needle nose pliers and terminal extraction tool
- Environmentally sealed to IP67
- Integrated mat wire seal
- Circuit plugs provide the ability to plan for possible future circuit additions, while maintaining the sealing integrity of the mated pair.

Applications continued

- Agriculture Equipment
- Construction Equipment
- Recreational Vehicles
- On-Engine automotive applications
- Marine Equipment
