

Product Spotlight

New! Sub-Miniature Press-in EMI/RFI Filter Design Kit

CTS 4310-900 Kit compiles samples of the smallest press-in “C” filter in the industry.

Features

- Ideal for limited real estate
- Small size enables 0.1” (2.54mm) center-to-center pitch
- Minimum capacitance values reaching 3pF up to 10000pF
- Supports working voltages up to 300Vdc at 85°C and 1A of current
- Rejection capabilities up to 60dB at 10GHz
- RoHS Compliant

Markets & Applications

- Test Instruments
- Microwave Radio
- Medical Test Equipment
- Industrial Control
- Fluid Control
